1/ Meet Thomas J. Loudon of Pekasie, PA.

He's a volunteer firefighter and Director of Managed Care at [@TJUHospital](#) in Philadelphia.

But as "Fireeagle," he's the head of the Bucks County Civilian Defense Force militia, and spreads violent, racist, and antisemitic conspiracies.

Winter patriot, excellent summary. Not sure how many of the militia units will pass that smell test. Their hearts are in the right place but they need to realize right now that antifa and blm are being trained and funded. Those marching in the streets are what they call cannon fodder. Those behind the scenes are who really need to be stopped.

### Antifa Planning Flag Burning At Gettysburg On July 4th

JUNE 22, 2020  
COMMENTARY  
2 MINS READ

According to a Facebook page called **Left Behind USA**, Antifa domestic terrorists are planning to desecrate the Gettysburg National Cemetery and set the American flag ablaze on Independence Day. Gettysburg, the site of the bloodiest battle of the Civil War and on American soil, is respected and revered by every sane American. As they have demonstrated since 2016, and in particular since Antifa and BLM have fused into a violent rage mob, the modern progressive and leftist movement has lost all sense of decency and sanity.

Not trying to be an alarmist but I received the following information from multiple sources:

30,000 members per state...many trained by radical Islam they plan on killing as many Trump supporters and whites as possible!!

ANTIFA To Desecrate Gettysburg National Cemetery on July 4 - Then MURDER & BURN White Suburbs under cover of "Fireworks"

ANTIFA is planning to desecrate the Gettysburg National Cemetery by burning flags there on July 4; just before they begin MURDERING White people and BURNING DOWN Suburbs the same day. It will start at the desecration of Union Soldier graves at Gettysburg, Pa.

According to the Controlled Unclassified Law Enforcement Bulletin issued as "Law Enforcement Sensitive - For Official Use Only" to Police and Fire Departments about ANTIFA already using fireworks to acclimate suburbia with sounds of explosions, so they can use those to cover for gun fire when they attack white, suburban, neighborhoods the same day.

According to Controlled Unclassified Information (CUI) in a Bulletin issued to Police and Fire Departments, ANTIFA has been taking deliveries of very large shipments of professional-grade fireworks. They have been sending teams out to various areas throughout America to detonate those fireworks for the past two weeks, to achieve Three (3) specific objectives:

- 1) The first objective is to test the response of local law enforcement. If fireworks are going off around the clock and residents are filing complaints, will police respond? How long does it take them to respond? How many officers? Do they even respond at all? This data is being recorded by these groups, and will prove to be very valuable intel for what is to come. This is a very accurate barometer to test the waters.
- 2) The second objective is to get local residents (ie: white people in nearby neighborhoods) acclimated to the frequent sounds of explosions that often sound like gunfire.
- 3) The final objective: Knowing response times and manpower of police, and having acclimated the local population into explosion sounds that mimic gunfire, to then commit arson attacks with professional fireworks to set so many fires, local Emergency Services are immediately overwhelmed, and enter houses to actually fire guns and kill as many as possible in white suburbs.

Unless you have been living on different planet, you should be fully aware that America is currently under attack. While mass-media has portrayed this situation as "peaceful protests" those engaged have been rioting, smashing private property and businesses, looting on a scale which is un-paralleled, and beating, stabbing, shooting innocent people in the areas where these activities are taking place.

You have probably also read or overheard many reports of illegal fireworks and explosions that are currently taking place throughout many different US cities. If you do a Google search for "fireworks complaints" you will find countless articles posted just in the last week or so.

Most of these news reports are local, since local news is far more likely to have boots on the ground and residents reporting an accurate assessment as to what is actually going on. However, national media outlets are largely attempting to paint this "uptick" in fireworks activity as a sign of people being overly "celebratory" in preparation for the 4th of July.

Glad to hear you're happy with the Taurus. Almost all reviews I researched were positive and I just bought it for my wife. I cc a sig P 320x and always have my Beretta 92F handy. Also been training her on using our armalite AR. Have quite a few more, but these are our primaries.

On the Civilian Defense Force forums, he notes that he's in Bucks County, PA, and that he's a volunteer firefighter. And the Deputy EMC for his township.

But that still doesn't tell us \*which\* town he lives in.
